

QR-375

QUARTZ TIME
RECORDER

Art for Calculation

SEIKO Precision

The Intelligent Time Recorder

The highly featured **QR-375** calculating time recorder was developed for your easy payroll operation. It offers you daily elapsed time calculation between IN and OUT time and the accumulation per pay period. The **QR-375** is the world's best featured calculating time recorder of its class.

Main Features

- Auto-feed and auto-eject of time cards
- Perpetual calendar to the Year 2099 for automatic advancement to current day, month and year
- Selectable 3 pay periods: monthly, weekly, bi-weekly
- Automatic Daylight Saving Time adjustment
- Built-in lithium back-up battery for 5 years data protection
- Calculate the elapsed time between IN/OUT punches and print a running total of accumulated time
- Printing IN/OUT as many times per day
- 2 types of different day schedules can be set in a week -- Common schedule/Extra schedule
- Special mark "!" printing for irregular recognition
- Memory capacity -- Maximum of 50 cards
- Automatic differentiation of the front and back of an encoded time card
- Cassette type: purple ink ribbon
- Back lighted large L.C.D.
- Optional Ni-Cd battery back-up system providing time keeping and printing operation during power failures

Actual size

Brian Caldwell

Month

Time (12-hour format)

Day of the week

Special mark printing "!" (In this case, "Late in")

Special mark printing "!" (In this case, "Early out")

Caution mark "*" mark printing (In this case, calculation result is "0:00")
